

Quintin “Vyrellic” Longardner

Founder & Esports Operations Leader | Cybersecurity & Global Policy Student
Indiana, USA • vyrellic@gmail.com • LinkedIn: quintin-longardner

EXECUTIVE SUMMARY

Founder and operations-focused leader specializing in building structured esports organizations, recruiting pipelines, and documentation-driven execution systems. Combines disciplined operational thinking with academic training in cybersecurity and global policy to support scalable, risk-aware decision making.

EXPERIENCE

Founder & Executive Director — Frostbane Esports (Present)

- Designed and manage organizational structure across operations, recruitment, competitive rosters, and content.
- Built recruiting and evaluation pipelines including tryouts, tracking systems, onboarding, and performance notes.
- Established standards for professionalism, execution cadence, and internal documentation.

Digital Records Management Intern — Shrewsberry & Associates

- Digitized physical records into structured electronic archives to support paperless operations.
- Applied consistent naming conventions and folder standards to improve retrieval and audit readiness.
- Maintained accuracy and confidentiality while handling sensitive documentation.

EDUCATION

Indiana University Bloomington

B.S. in Cybersecurity & Global Policy (In Progress)

SKILLS

Operations & Leadership: Operational planning, workflow design, documentation, recruiting pipelines, stakeholder communication, standards & accountability

Technical & Tools: Google Workspace, Discord operations, content workflows, analytics mindset, OBS/streaming tools, security awareness
